To experience a safer world of food storage, contact your nearest BB4 stockist today

P-touch tapes are strong and not easily digested, for this reason care should be taken to prevent accidental ingestion. Labels should only be attached to food containers, food packages or to food preparation equipment and not directly onto food surfaces. Always remove labels before heating. Labels must not be placed in microwave ovens.

### Food storage labelling made easy.

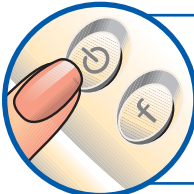

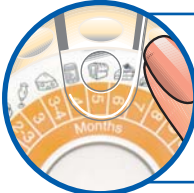

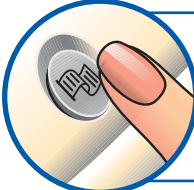

With the need to be more hygienic, and food preparation coming more and more to the forefront of our everyday lives, it is important to have an effective system you can rely on. Which is why Brother have developed *P-touch BB4*, a clear and easy to use - but extremely reliable - guide for food storage.

Simply tell BB4 the best-before date of an item of food. And with all the information printed on easy-to-read labels that can't be smudged, you will always be able to see when your food should be used by. It couldn't be easier - simply dial and display.

# It really is this simple

-  Step 1:  
Switch on
-  Step 2:  
Select icon and date
-  Step 3:  
Print

The simple-to-use BB4 food storage labeller allows you to label with 4 labelling options, shown below.

**Stored on:**  
Thursday 30 Aug 01

1. Food label stored date only.

 **Stored on:**  
Thursday 30 Aug 01

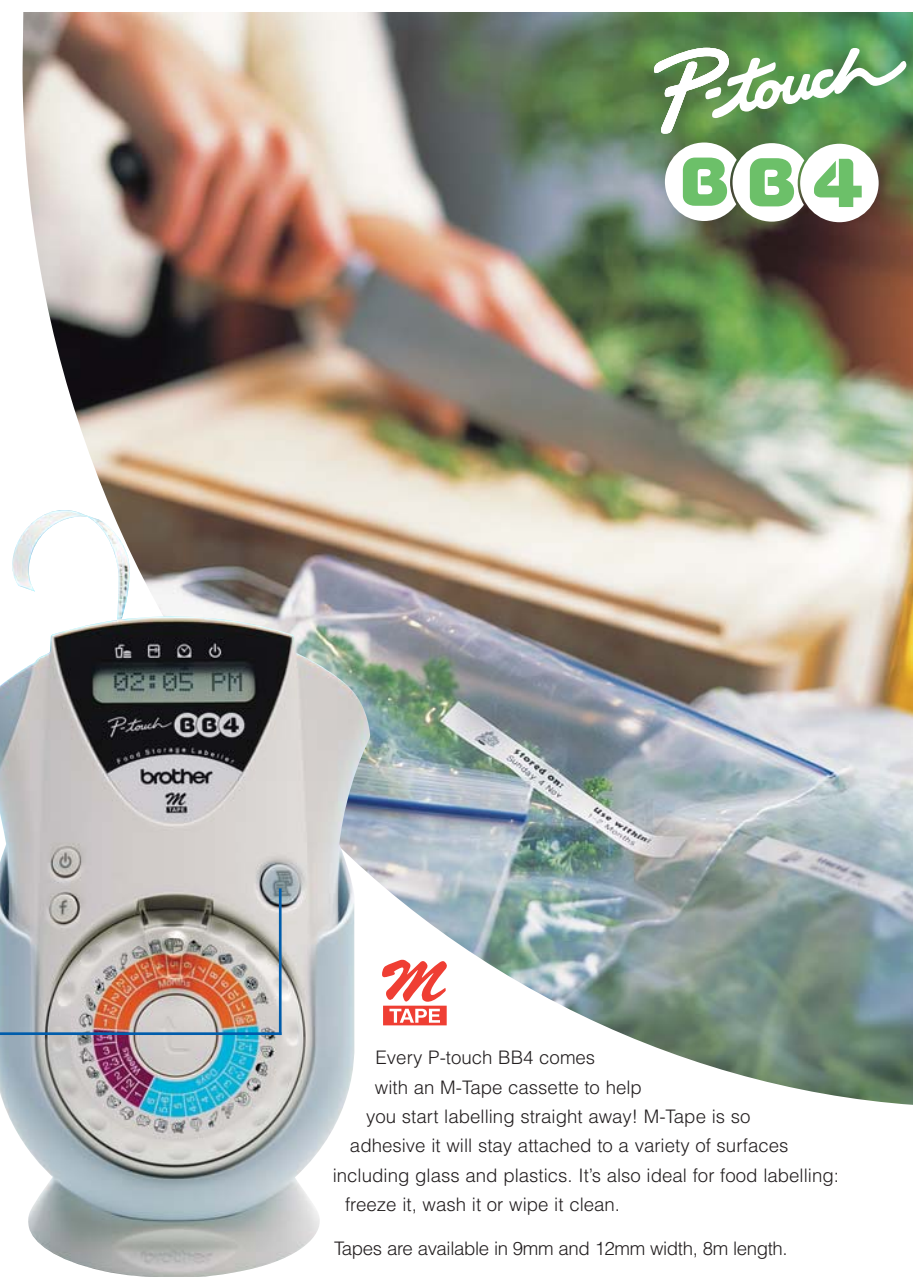

2. Food label stored date and food icon.

 **Stored on:** **Use within:**  
Thursday 30 Aug 01 2-3 Weeks

3. Food label stored date, food icon and "Use within" date.

 **Stored on:** **Best before:**  
Thursday 30 Aug 01 Sunday 9 Sep

4. Food label stored date, food icon and "Best before" date.

TAPE

Every P-touch BB4 comes with an M-Tape cassette to help you start labelling straight away! M-Tape is so adhesive it will stay attached to a variety of surfaces including glass and plastics. It's also ideal for food labelling: freeze it, wash it or wipe it clean.

Tapes are available in 9mm and 12mm width, 8m length.
