

Digta 4015 DS

Digital technology – portable and easy to use

Digta 4015 DS Premium Digta 4015 DS Classic

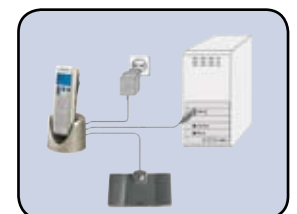

Improved efficiency in your hands:

The Digta 4015 DS brings together all the benefits of digital speech processing – including easy operation. With a special plus for the professional user: The internal 64 MB memory means voice recordings of almost 10 hours are now possible. And the DigtaStation 441 can charge the onboard Grundig rechargeable batteries immediately. Enjoy using the latest in digital speech processing.

- Premium digital hand dictation machine – uniquely available with 64 MB of permanent memory and an MMC/SD interface
- Indexed storage of dictations in up to seven directories, e.g. according to subject
- Real-time clock function for time stamping dictations
- Instructions to the typist, indexing and priority
- Easy data communication with DSS-Mover, using the docking station DigtaStation 441
- Plug-in option for DigtaScan 404 bar code reader or DigtaRFID 414 RFID reader
- Software DigtaSoft included

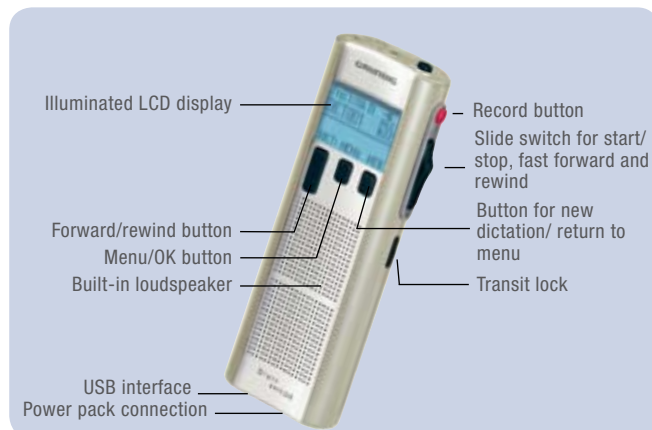

Can be combined with the Digta-Station for battery charging ...

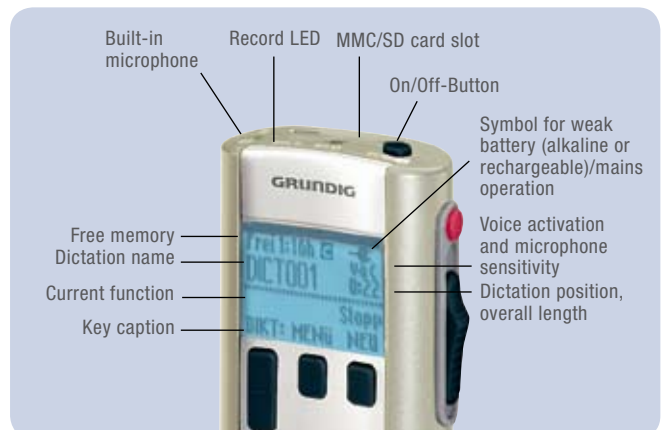

and a foot control for hands-free dictation.

Digta 4015 DS

Controls

Display
