KX-FC255E

Advanced Communication System with DECT Phone Convenience

DECT DECT Phone

The DECT phone represents an entirely new wave of communications with the digital performance and style you would expect from Panasonic. Walk and talk in comfort - enjoy a smarter, more convenient communications in your office and home.

Large, Easy-to-Read Colour Display

The handset's 80 x 102 pixel-display offers a bright, colourful icon-based menu that's easy to see and easy to use. Operation mode and current status are clearly displayed either in waiting mode or in use. The background image is selectable so you can change it to suit your preference.

Caller ID Ready*1 on Base and Handset

The caller's name and phone number can be displayed on the LCD of both the base and handset. So, you can see at a glance who's calling before you answer the phone.

Short Message Service [SMS] Compatible*1

The convenience of sending and receiving text message is available from a home telephone.

Advanced Features

All Digital Answering System

The KX-FC255E answers all your calls, records messages and receives faxes while you are away. The digital system makes operation virtually silent and instantaneous.

Digital Speakerphone on Base and Handset

This system features dual digital duplex speakerphones, on the base and cordless handset. You can enjoy clear, natural, two-way conversations on the digital speakerphone.

System Remote Control from Handset

The unit allows you to activate fax function, switch the receiving modes, and control the answering system from remote location within the range.

28-Page Document Memory*2*3

The system can store up to 25 pages in its built-in memory for transmission. Ideal for broadcasting multi-page documents to multiple locations, and for receiving faxes when out of paper up to 28 pages.
