

The Benefits

Pays off after 8 hours usage*

The post gets to the addressee faster

Opening process leaves no scrap and doesn't damage the contents

*Estimation in comparison to opening letters by hand

Automatic Office Letter Opener Martin Yale 1648

With the automatic office letter opener, the letters will be automatically opened and stacked neatly in the receiving tray.

The high hourly output means the incoming mail gets to the addressee quickly and cheaply.

The envelopes will be opened so that the letter content will not be damaged. The operation is chadless.

The Martin Yale 1648 is recommended for boxes with more than 100 letters per day.

Can be used in:

- Mailrooms
in small businesses and large companies
- Administrating centres

Opening process, no scrap, chadless.

Automatic feeding via transfer belt and automatic on/off control via light barrier.

Strong envelopes and high stacks of envelopes can be accepted without pre-sorting.

Automatic Letter Opener Martin Yale 1648

Special features

- Opening process, no scrap (chadless) and the content is free of damage
