COLOUR i-SENSYS MF9170 / MF9130 / MF8450

specifications for i-SENSYS MF9170

Professional colour on demand, to boost your business potential

Whether you're a small business or corporate workgroup, we offer a complete and compact colour solution to meet your needs. Save space, cut costs and enhance workflow efficiency with superior colour quality, fast output, Quick First-Print performance, powerful SEND functionality and exceptional ease of use.

The i-SENSYS MF8450 is the ideal multifunctional solution if you are a small business looking to use colour to gain a competitive advantage and expand your enterprise. The i-SENSYS MF9170 and MF9130 are perfect for small corporate or business workgroups requiring outstanding colour output to enhance communications.

Superb colour quality, perfect pure black text

See your work stand out from the rest. These smart, desktop models set new standards in colour quality by incorporating many of the advanced technologies found in Canon's high-end imaging devices. A host of innovative technologies – including Pure Black technology, Real-Time ACS (Auto Colour Select), Super Toric lens and Dual Direct Mapping technology – ensure unrivalled colour accuracy and consistency.

The end result is that your work benefits from the finest colour reproduction. Give your brochures, reports, presentations and leaflets added impact - with beautiful colour images, bold graphics and sharp, fine text.

Save time, cut energy costs

Save time with productive 21 ppm¹ colour printing and copying. There's no waiting, thanks to our unique and eco-friendly Quick First-Print technologies. With instant warm-up from sleep mode, the unit springs into action the moment you need it. A fast First Copy Out Time of only 12.5 seconds² adds to time-saving efficiency.

**FCOT
12.5
seconds**

Our exclusive Colour On-Demand Fixing technology ensures class leading energy efficiency. Units use only 1.2 watts in sleep mode, to reduce energy consumption and cut costs. These i-SENSYS colour multifunctional printers are Energy Star certified with a low TEC (Typical Electricity Consumption) rating when compared to many competitive machines in the same class.

SEND FUNCTIONALITY

Ultimate usability

Simple to use straight from the start, these user-friendly models allow your business to achieve maximum efficiency right away with minimum effort. The large 3.5 inch colour TFT display with Easy-Scroll Wheel allows everyone effortless access to all functions.

3.5 inch colour TFT display

A target-orientated graphical menu enables speedy, straightforward operation.

Intuitive and illustrated set up and trouble-shooting wizards ensure smooth and hassle-free functioning at all times.

Share information effortlessly

Speed up and simplify your workflow and save time with powerful and flexible SEND functionality. Scan colour documents quickly and easily for direct distribution via email, network file server, FTP server, internet fax or USB memory key.

Documents can be scanned into a number of digital formats including convenient 'Compact PDF' using Canon's unique high compression technology. This provides high quality, portable PDF documents that are perfect for sharing via SEND functionality.

The large 3.5 inch colour TFT display with Easy-Scroll Wheel allows everyone effortless access to all functions.

Productive, robust performance for busy workgroups and small businesses

These i-SENSYS colour multifunctional network printers are ready to handle your busiest workloads. Highly productive features and robust, reliable operation allow you to meet even your tightest time schedules. Advanced functionality can be shared across your workgroup or small business, while ID management provides the ability to restrict access to the machine's functions.

Full automatic double-sided output

Cut costs, save paper and produce professional reports and documents with automatic double-sided printing.

Duplex print, copy & scan

Automatic double-sided copying, scanning and faxing¹ are standard, using the 50-page Duplex Automatic Document Feeder. It handles your double-sided documents fast and efficiently - saving time and increasing productivity.

Extensive paper supply and durable design

Handle busy workloads thanks to a robust design backed by 65,000 page duty cycle, up to 512MB standard memory and an extensive paper supply (i-SENSYS MF8450: 50,000 page duty cycle and 384MB memory). An optional 500-sheet paper pedestal increases the paper capacity to a maximum of 850 sheets, which is perfect for dynamic workgroups and small businesses.

Easy networking with a Remote User Interface

Share productive printing, scanning and PC faxing¹ (sending only) within small, busy workgroups, with these network ready models. The Remote User Interface allows connected users to check the machine status directly from their web browsers. At the same time, network administrators can configure, monitor and manage the machine remotely. With complete management control, you can reduce administration costs to a minimum.

1. Not available on i-SENSYS MF9130
2. Not available on i-SENSYS MF8450
3. Based on 5% coverage

- 1 50-page DADF (Duplex Automatic Document Feeder)
- 2 Built-in duplex unit for double-sided printing and copying
- 3 3.5 inch colour TFT display with Easy-Scroll Wheel
- 4 Memory card slots²
- 5 2 USB memory key ports
- 6 100-sheet multi-purpose tray (max. A4)
- 7 Standard 250-sheet cassette (max. A4)
- 8 Optional 500-sheet paper pedestal (max. A4)
- 9 Optional telephone handset¹

Complete security and cost control

Controlling security and costs is crucial in shared working environments such as open office spaces. The Department and User ID management function restricts machine access to authorised staff only. It also enables detailed monitoring of copying, printing and faxing¹ costs. Exclusive access to device settings via the System Manager ID ensures protection of important system settings.

User ID management

Convenient All-in-One colour cartridges

Canon's convenient All-in-One colour cartridges provide continuous, high quality output. Each of the four compact colour cartridges incorporates toner, drum and cleaning units - reducing maintenance requirements and increasing reliability. Replacement is clean, fast and simple, with easy front loading. Always use Authentic Canon cartridges to make sure that you benefit from professional quality colour output at its very best.

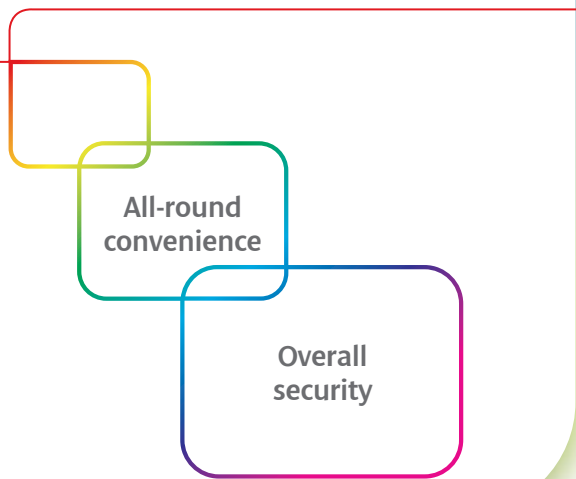

Easy Service Plan for peace-of-mind

For maximum uptime and minimum hassle, make the most of Canon's optional Easy Service Plan. This value-for-money service ensures high quality assistance and authorised experts are always at hand, whenever needed. Simple, practical and profitable for users, it keeps your business up and running at all times. For more information please visit: www.canon.co.uk/easyserviceplan

Powerful, versatile solutions to fit your precise needs

Pick the colour multifunctional printer that meets your precise business requirements. Do you want to add professional fax functionality to superb colour printing, copying and scanning? Does your workgroup operate in a managed network environment? Do you want to print colour photos direct from memory cards? Whatever your specific situation or needs, Canon offers smart and effective solutions.

Seamless integration into PCL print environments

The i-SENSYS MF9170 and MF9130 models provide PCL 5c/6 compatibility to ensure easy and seamless integration into your existing PCL printing environment. Furthermore, all three models feature Canon's own proprietary UFR II-LT Ultra Fast Rendering printing architecture. This speeds up image processing and print output. The printer driver also provides access to all printer settings via a user-friendly graphical interface, adding to overall ease of use.

Fast professional faxing

The i-SENSYS MF9170 and MF8450 models feature a Super G3 fax modem, to transform your multifunctional into a complete communications centre. Send detailed fax documents perfectly, thanks to our Ultra High Quality technology with 256 shades of grey. A range of features include an extra large 1000-page¹ fax memory and up to 200 speed dials. This ensures reliable, easy and efficient faxing for your business all the time.

**1000-page
fax
memory**

PC-free photo printing from memory cards

Take advantage of built-in memory card slots with the MF9170 and MF9130 models. All popular memory cards² from digital cameras are accepted, enabling easy and efficient photo printing without even using a PC. You can select photos and view the print options on the large 3.5 inch TFT display. Then enjoy the results, with Canon's professional colour laser performance delivering truly stunning colour prints.
