

**Abrasion Resistant**

Can withstand heavy abrasion.

**Temperature Resistant**

Resistant to temperatures of -80°C to 150°C.

**Chemical Resistant**

Resistant to a wide range of industrial chemicals.

**Water Resistant**

Water resistant.

**Fade Resistant**

Resistant to ultraviolet exposure.

**Laminated**

Patented lamination provides an extra protective overcoat.

**Strong Adhesion**

Strong adhesion to a wide range of surfaces.

**Easy Peel**

Enables convenient removal of tape backing.

Always at your side

## The Brother P-touch 1280VP includes carry case, tape and adapter.

- Clearly and permanently label filing cabinets
- Neaten files and folders
- Organise CDs
- Label PC equipment, including monitors & cables

## P-touch 1280VP

Everyone knows that in a busy working environment there's nothing more important than having the right equipment in place. With this in mind, the Brother P-touch 1280VP has been specifically designed to accommodate all of your

labelling needs. This simple, easy-to-use desktop labelling machine will help you to create clear, professional labels for any purpose with the minimum of fuss, leaving you free to use your time more efficiently.

### Tape width

In every working environment there's often the need for a wide variety of different labelling solutions. With the P-touch 1280VP you can print labels of any size; from 3.5mm tape for slimline CDs right up to 12mm tape for filing cabinets.

### Design versatility

Choose from 9 different type style combinations, as well as mirrored text, underlining and two-line printing capabilities. The possibilities are endless.

VERTICAL

|                |         |
|----------------|---------|
| NORMAL         | OUTLINE |
| BOLD           | SHADOW  |
| FLORRIM        | ITALIC  |
| ITALIC/OUTLINE |         |
| ITALIC/BOLD    |         |
| ITALICSHADOW   |         |

### Symbols and Frames

Choose from 5 frame styles and 63 symbols.

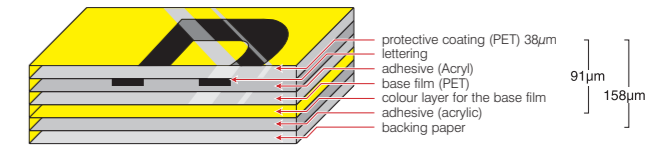

### Hardwearing Labels

Brother's unique, patented TZ tapes are designed to be extra hardwearing. Tests have shown that these scratch-proof labels can withstand heavy abrasion, electrical resistance and lengthy exposure to chemicals, sunlight, water and extreme temperatures, from -80°C to 150°C.

### Laminated Tape Construction

Brother laminated tapes consist of six layers of materials, resulting in a thin, extremely strong label. Characters formed with thermal transfer ink are actually printed on the underside of the laminate and sandwiched between layers of PET (polyester film). This lets you create characters that are virtually indestructible on labels that stand the test of time.

Brother Laminate Tape Construction

### Tape Colours & Length

TZ tapes are available in a large range of colours. Standard tape length is 8m providing approximately 100 labels (based on 10 characters & standard label length of 8cm). For full tape line up see TZ tape catalogue.

### Tapes for all purposes

Within the laminated TZ tape range we also offer special tapes, including:

**Strong Adhesive Tape** - To give improved adhesion for those even more demanding applications and environments. In tests, this tape has shown improved performance on materials including: stainless steel, glass, PVC, acrylic, polypropylene and polyester-coated wood.

**Flexi ID Tape** - Ideal for cylindrical surfaces and flagging cables.

**Silver Metallic Tape** - This reflective aluminium effect tape is ideal for use on valuables and also looks smart on electrical equipment.

**Fabric Iron-On Tape** - Produces washable cloth labels that can be attached onto various fabrics by using an iron. This tape is ideal for labelling uniforms, work wear, bedding and table cloths.
