

PROFESSIONAL, AFFORDABLE LABELLING TOOL

FOR INSTALLERS & SYSTEM INTEGRATORS

RHINO 3000™ is an advanced, portable and affordable labeller.

When it comes to labelling your work, you'll find that RHINO 3000 fits your needs and budget. What's more, it's so easy to carry and use, you'll reach for it without thinking twice.

The features you need.

A cost you'll appreciate.

RHINO 3000 has been designed by installers, for installers - for fast, efficient labelling of security networks, home theatres, home automation, professional audio/video systems, voice and data networks and much more. With powerful 'Hot Key' functionality and label memory, you'll save time on every job. And with its impact-resistant rubber bumper and backlit display, you'll have no problem handling it, finding it, or even dropping it.

RHINO labels stick and last.

Our easy-to-peel, split-back labels are resistant to heat, UV, moisture and more. And because they stick and stay stuck, you'll build your reputation while you save time and money.
