 EAN: 8717496335029

# 155-S COUNTERFEIT DETECTOR

## 100% ACCURATE DETECTION

The Safescan 155-S uses the latest counterfeit detection technology to scrutinize seven advanced security features built into today's currencies: infrared ink, magnetic ink, metallic thread, color, size, thickness and watermark. This technology is so reliable it even detects double notes and half notes. In just half a second, you'll know with 100% certainty whether the banknote in your hand is genuine or counterfeit—and your customer will know, too, eliminating unnecessary discussion.

- 100% counterfeit detection ([www.ecb.eu](http://www.ecb.eu), [www.bankofengland.co.uk](http://www.bankofengland.co.uk))
- 7-point automatic counterfeit detection: Infrared, Magnetic Ink, Metallic Thread, Watermark, Size, Thickness and Color
