

# FAX MACHINES

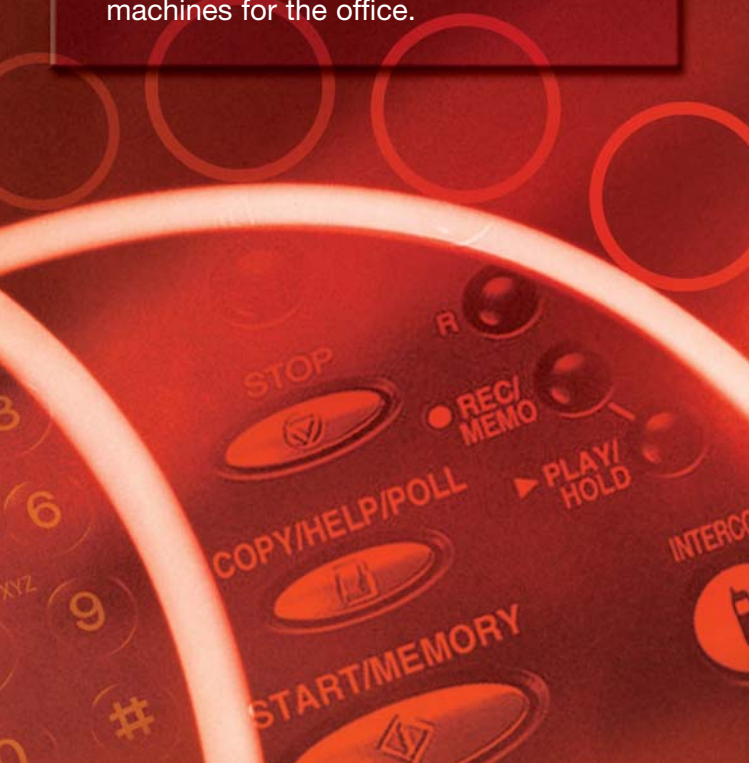

Compact and Reliable  
Performance

**SHARP**

# INTRODUCTION

Nowadays a fax machine is an integral part of the home and office. Whether it's used everyday as part of your direct marketing campaigns, used as a key communication tool that helps you keep in touch with your customers, or simply as a back up to other office functions; a fax machine needs to be reliable, consistent and produce excellent quality.

Sharp is one of the UK's largest fax manufacturers with an extensive range of machines to suit a wide variety of needs. Our product portfolio covers everything from compact machines for home users to super efficient laser machines for the office.

# UX-B30H

Plain Paper Inkjet Fax Machine

## Answering Machine Interface

The UX-B30H comes with an answering machine interface, this allows you to connect an external answering machine to your fax so that you can receive messages when you are out.

## It copies too!

This great fax can also be used to make copies. Singles and more (up to 99 copies per original) can be made, enabling your fax machine to also double up as a copier.

## Great quality reproductions

Use half tone resolution setting for photographs and illustrations. The original will be reproduced in 64 shades of grey.

- Built-in handset with on-hook dialling
- 30 two touch speed dials
- High print resolution of 600 x 600 dpi
- Copy feature for up to 99 pages at once
- 64 level halftone/superfine/fine/standard resolution
- Caller ID (subject to network)
- Telephone answer machine interface
- Delayed send
- Anti junk fax

FAX RANGE

# UX-B560H

Plain Paper Inkjet Fax Machine

## **Ban the 'Junk'**

The anti junk fax function allows you to block faxes from a party that you specify. This can save you paper by not printing out unwanted 'junk' faxes.

## **Great Memory**

In situations where printing is not possible, such as when paper runs out, the print cartridge needs replacing or the paper jams, incoming faxes will be received to memory, and printed when the problem has been solved.

## **Copy Function**

This fax can also double up and become a copier too. Not only does it produce great quality copies it will also sort them for you.

- 2-Line large LCD display
- SMS (Short Message Service) function
- Digital answering systems
- Memory transmission, broadcasting and substitute reception
- Help key
- Silent receive mode

# UX-B800

Smart Business Inkjet Fax with Email Functions

## **Fax/Scan to Email**

This smart fax machine allows users to send and receive faxes directly to e-mail, and to create a stand-alone communication tool for small office, field sales or business traveller. It provides an economical, flexible solution for business professionals.

## **Built for Convenience**

It has a full-function QWERTY keyboard, which allows for quick and easy input of e-mail addresses. The UX-B800 combines the features of a traditional fax, copier, phone and scanner into a single machine with the added benefit of direct to e-mail faxing capabilities. The built-in scanner enables documents to be sent via PDF or TIFF format directly to an email without connecting to a PC.

## **Other Features**

- Two-sided send/scan/copy
- Secure receive
- Silent receive
- Serial broadcasting
- Anti junk fax
- 39 rapid dials and 63 speed dials
- Built-in phone/fax smart switch
- 20 x 2 line LCD display

**FAX RANGE**

# UX-BD80H & UX-BD90H

Plain Paper Inkjet Fax Machine

## **Cordless and Digital Quality**

Both models allow you to take calls and move up to 200m from the base without losing any clarity and quality of the call. The UX-BD90H enhances its features with two great quality cordless digital handsets.

## **Built in Answering Machine**

The built in answering machine allows you to receive both voice messages and faxes while you are out.

## **Transfer Calls**

Calls can be transferred between the base and the cordless handset(s), and between each of the cordless handsets on the UX-BD90H.

## **Send and Receive SMS text messages, and copies too...**

Your fax machine can be used to send and receive SMS text messages.\* It also makes copies (single/multiple – 99 per original), enabling your fax machine to double up as an office copier.

- DECT Handsets GAP-Compatible (x 2 UX-BD90H)
- Large LCD
- Speakerphone
- Anti junk fax
- Silent receive
- Digital answer machine
- Polling & serial broadcasting
- Delayed send
- Caller ID List\*\*

\* To use this feature you must subscribe to BT SMS service and have the caller ID service activated on your telephone line.

\*\* To use this function you must subscribe to a caller identification service from your telephone company.

**FAX RANGE**

# UX-P410H

Plain Paper Thermal Transfer Fax Machine

## **Thermal Transfer**

Thermal transfer fax machines can help reduce costs. This fax uses a roll of imaging film to create printed text and images. The print head in the fax applies heat to the imaging film to transfer ink to the paper.

## **Anti Junk Feature**

The Anti Junk Fax function allows you to block faxes from a party that you specify. This saves paper by not printing out unwanted 'junk' faxes.

- 10 Page automatic document feeder
- 4 way navigation pad
- Built-in handset with on-hook dialling
- Anti junk fax
- Polling function
- Broadcast function
