## TB 250

## THERMAL BINDING

### FEATURES

- Thermal binding machine
- Binds up to 300 sheets A4 80g at a time
- Heats up in just 3 minutes
- Green light shows when machine is ready to use
- Thermal cover spine selector with magnified viewing glass
- Internal clamps to hold documents vertical
- Automatic 30 second heat cycle
- Beeps when document is bound
- Adjustable cooling rack at the back of the machine for newly bound documents
- Auto shut-off

### BENEFITS

- User-friendly; binding a document is as easy as making toast!
- Quick heat-up time
- Clamps securely hold documents during the binding process
- Heat cycle starts automatically when document is loaded
- No need to stand and wait - machine beeps when binding cycle is complete
- Safe - auto shut-off prevents machine from overheating when no longer in use
- Compatible with any thermal cover available on the market
